PRESSURE MONITORING

ORDER NUMBER
DF-000-V001

The versatile and reliable compressor for sewer renovation.

Our whisper compressor with integrated PRESSURE MONITORING and vacuum pump is designed for use in the domestic connection area. Thanks to its compact design, it can be used anywhere and is easy to operate.

With a maximum noise level of 30 dB (A), the whisper compressor also avoids noise pollution in sensitive locations like schools, hospitals, multi-family homes, etc.

TECHNICAL VALUES

VOLTAGE	230 V	Suction	25l/min
HEIGHT	43.5 cm	Effective performance	19l/min
WIDTH	41 cm	Pressure	8 bar
DEPTH	19 cm	Engine power	0.2 kW
VOLUME	30 bB(A) (quieter than a room fan in a comparison test)		

Note:

The compressor is not suitable for continuous operation (after a maximum of 10 minutes of operation, the engine must switch off for approx. 1 to 2 minutes, since the engine is encapsulated).
