

RESIN-EX

ORDER NUMBER
ZH-000-0003

Contents: 400 ml in a box of 12

1. Spray
 2. Wait
 3. Clean
- DONE!**

With improved
recipe and
pleasant scent!

RESIN-EX

THE ULTIMATE RESIN REMOVER

Removing synthetic resins always creates a mess. Tools, stairs, floors, etc. end up with resin stains, which are hard to remove. This is why we developed HARZ-EX.

This special product for the rapid removal of cured epoxy, silicate, polyester, polyurethane resins, methyl methacrylate, etc., contains no solvents and can be applied to solid substrates like glass, ceramic, laminate, stone / concrete floor, metal and more.

**NO MATTER HOW
STUBBORN THE STAIN,
HARZ-EX WILL GET RID OF IT!**

RECOMMENDED USE:

Spray **HARZ-EX** on the stain

Wait a while, depending on how stubborn the stain

Remove the resin (thicker stains can be removed more easily)
